

Independent Voices – Campus Underground Overview

Underground, alternative, and literary newspapers and magazines from the fifties through the eighties were everywhere. They were in urban, suburban, rural, ghetto, barrio, tribal, and other communities in every U.S. state and in countries around the world. Reveal Digital's Independent Voices is the most extensive digital collection of these historic publications that has ever been conceptualized and created.

The Campus Underground series includes publications that originated from college and university campuses and surrounding communities.

Whether laid out in traditional black and white straight columns or full-color psychedelic, the publications in this collection provide a vivid mosaic of the times.

Local and national radical groups represented by these publications include the Weather Underground (*Osawatomie*), Students for a Democratic Society (*SDS*; *New Left Notes*), Southern Student Organizing Committee (*SSOC*; *New South Student*), Yippies (*Overthrow*), Diggers (*Kaliflower*), Free Speech Movement (*Wooden Shoe*), and many others.

Content in this collection is valuable because it exposes students to an alternative view of important historical movements and events, including the Civil Rights Movement, the Vietnam war, music, art, poetry, the drug wars, government spying on citizens, the emerging gender, minority, ecology, and other liberation movements. These and every other major issue of the period are covered extensively in the pages of the campus underground press.

“Finally, a searchable trove of the *Berkeley Barb*'s (near-) complete 15-year history. For reasons unknown, the *Barb* was never included in the Underground/Alternative Press Index, so all that history had been lost to us. Now it has reappeared in all its smudgy splendor.”

Gar Smith
Berkeley Barb veteran staffer
